

Village of Palmyra Board of Trustees

Sp.Mtg. Comm.Ctr.

7-8-93

7:00 p.m.

PRESENT: Mayor James G. Elliott, Deputy Mayor Thomas N. Lynch, Trustee Kathleen C. Drews, and Edward Dundas, CEO. Fair Board members, W. VerPlank, J. L. Brown, D. Luteyne, Sr., Harry White, H. Baker, President, P. Bender, D. Hullet, K. Barbehenn, and F. Bell. Comm. Ctr. Board Tom Hunt, President, J. Campbell, and J. McGinnis. Youth Baseball Peter Wilson, President, K. Prindle, T. Footer, and D. Dangrino. Concerned citizen, J. Redmond, and news M. Ducey.

CALL TO ORDER: Mayor Elliott called the mtg. to order at 8:00 p.m.

Mtg. concerning Youth Baseball Hot Dog Stand: Reference was made to a mtg. that T. Footer reported that P. Wilson, D. Dandino, and K. Prindle had with the state on 6-4-93.

It was noted that the hot dog stand was considered a permanent fixture and needed hot/cold water, sink, hand wash facility, utility sink, smooth easy to clean walls, floor and ceiling.

Ed Dundas noted Chapter 29.14 - 10 that the bldg. has electrical problem and the bldg. is too close to the lot line. Question of bldg. permit was asked.

Mayor Elliott said that VOP would assist with water line and sewer service. VB members there agreed.

Variance discussed saying could be granted.

Comm. Ctr., Youth Baseball, and Fair could work out details on fate of bldg. Zoning was discussed and H. Baker noted that fair gets unfair zoning treatment with 2 sets of standards, one for little league and one for fairgrounds. Village cannot rezone fairgrounds said Mayor Elliott. It was noted that it will take public support to fix up bldg. A portable hot dog stand was discussed.

ADJOURNMENT: Mtg. was adjourned about 8:12 p.m.

Minutes taken by Trustee Drews and Mayor Elliott. Transcribed by B. Hays, Village Clerk.

Respectfully submitted,

Bonnie J. Hays, Village Clerk

VILLAGE OF PALMYRA BOARD OF TRUSTEES

Regular Bd. Mtg.

7-19-93

7:00 p.m.

PRESENT: Mayor James G. Elliott, Deputy Mayor Thomas N. Lynch, Trustees C. D. Gilmore, Daniel E. Wooden, and Kathleen C. Drews. Attorney Nesbitt arrived approx. 8:00 p.m.

CALL TO ORDER: Mayor Elliott called the mtg. to order at 7:07 p.m.

MRB: Mr. Greg Barbour, P.E. and Mr. Michael Guyon, Project Engineer reported on the Water Distribution Network Analysis for the Village of Palmyra, contracted by the VOP and received by the VOP on May 12, 1993. Mr. Guyon explained his sources of information. Highlights of some problem areas such as Burnham Heights, and Prospect Hill were noted, with qualification that the up hill grades may cause some of the readings. H. Kruger, W/WW Superintendent, VOP maps, and a computer analysis were used by MRB. The static pressure is usually acceptable. There are some areas deficient in fire flows ie High School, Hyde Parkway, Rt. 21 S, East Vienna St. and End of Kent St. Mr. Guyon noted the ISO rating as a gauge for keeping the VOP in the fire class already in. Jackson St. Hyde Parkway and Canandaigua St. could have some closed valves or pipe deterioration. Increased pressure on Burnham Heights and Prosp. as well as Hyde Parkway could be done with booster pumps or a second (expensive) option of a new tank. Mr. Barbour and Mr. Guyon noted that this was unnecessary and alternative water could be used in VOP at the time the present tank is being overhauled and painted. The TOP water was suggested. Trustee Gilmore asked if there was abnormal water flow which Mr. Guyon noted at Johnson and Foster could be a failed valve or deteriorated pipe. Changing some of the 4" pipes to 12" in areas of older piping. Trustee Gilmore noted that the NYS was planning to do something with Rt. 21 and asked what is the difference between a 10" line vs a 12" line. \$3.00 per ft. was the answer. Original cost of line is \$6 to \$8 per ft. Mr. Guyon suggested that there was no crisis situation and after the next few years upgrading or changes on priority lines should be looked at and see where lines can be looped together.

The new storage tank was not recommended since the cost was expensive unless the VOP was planning to expand or sell water. For the week of shut down while the tank is being repaired, a notice could be sent to residents restricting water use during repairs. Trustee Gilmore asked if there was a low water pressure problem? Mr. Guyon said not a major problem, the current system will served the residential areas. Depty Mayor Lynch asked if the 4" lines were changed to larger lines would that help the flow in other areas of the VOP. Mr. Guyon said no, only would help the street on. Depty Mayor Lynch asked about using 18" vs 14" lines. Mr. Guyon said the cost of 18" would not be cost effective. Mr. Barbour noted that it was not usual to have the total recommended amount as specified by ISO. That ISO was high.
